ABOUT ME

Information Technology student with knowledge and hands-on experience in developing websites, web applications, and mobile applications using HTML, CSS, JavaScript, TypeScript, React.js, Next.js, and React Native. Skilled in building responsive user interfaces and integrating REST APIs. Interested in Frontend Development, Backend Development, and Full-Stack Development, with a strong willingness to learn new technologies and continuously improve technical skills.

SKILLS

Frontend

- HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Bootstrap 5, Tailwind CSS, Responsive Design, Axios, React Hook Form

Backend

- Node.js, Bun Runtime, Express.js, Elysia.js, Java SpringBoot, RESTful API, JWT Authentication, Prisma ORM

Mobile

- React Native, Expo

Database

- PostgreSQL, MySQL, MongoDB

Tools

- Git, GitHub, Postman, VS Code, Docker, Figma, PgAdmin4, MongoDB Compass

Cloud & Deployment

- Vercel, Render

WORK EXPERIENCE

Software Developer (Freelance)

Rajaphat Maha Sarakham University | 2024 - Present

- Developed and maintained web-based systems for university operations.
- Designed responsive user interfaces using Next.js and TailwindCSS.
- Integrated REST APIs with Elysia.js and managed deployment processes.

Website Maintenance & Enhancement

Cooperative Education Center Rajaphat Maha Sarakham University | 2025

- Enhanced and maintained an existing WordPress website.
- Updated website content, layouts, and user interface components.

PROJECTS

Alumni Network Information System

- Designed, developed, and deployed a university-wide alumni information system.
- Implemented role-based access control, dashboard analytics, reporting, and email notification features.
- Developed data import/export functionality and backup to Google Drive

Internship Management System

- Designed, developed, and deployed a professional internship management system for students, lecturers, employers, administrators, and executives.
- Implemented internship applications, daily logs, evaluations, supervision tracking, reporting dashboards, and role-based access control.

Tech Stack: Next.js, Elysia.js, Bun Runtime, PostgreSQL, Prisma ORM

Tech Stack: Next.js, Elysia.js, Bun Runtime, PostgreSQL, Prisma ORM

Cartzy Real-Time Street Vendor Locator

- Built a mobile app connecting street food vendors with customers via real-time GPS location tracking
- Developed vendor features: live status toggle, auto location updates, and self-service promotion management
- Designed customer features: real-time nearby vendor search, map view, and favorite-store notifications
- Added analytics dashboard for vendors to track top-selling items and customer engagement

Tech Stack: React Native, Expo, Elysia.js, Bun Runtime, GoogleMap API, PostgreSQL, Prisma ORM

Contract & Installment Management System

- Developed a contract and installment management system enabling customers to view contract details, payment schedules, outstanding balances, and payment history.
- Implemented payment slip upload functionality with AI-powered document verification and automatic extraction of payment information.
- Integrated cloud storage and automated data synchronization workflows.
- Optimized system performance using Redis caching.

Tech Stack: Next.js, Google API, Grok API, Upstash Redis

COMPETITIONS & ACHIEVEMENTS

Startup Thailand League 2025

- Selected as one of the Top 100 teams nationwide.
- Received startup development funding of THB 25,000 to support product development and validation.
- Developed a mobile application using React Native.
- Showcased the project at Siam Paragon, Bangkok.
- Participated in startup pitching and innovation development activities.

EDUCATIONS

Bachelor of Science and Technology Rajaphat Maha Sarakham University

Faculty of Science and Technology
Major : Infomation Technology

GPA : 3.96

OTHER SKILLS

- Problem Solving
- Requirement Analysis
- Project Management
- Communication
- Self-Learning
